The Combined Plan Program is founded on articulation agreements between Columbia University and nearly 100 affiliate institutions nationwide.

To be considered in our competitive review process, we recommend that an applicant successfully meets all of the following requirements:

- Full-time enrollment at an affiliate institution for at least the past three years
- An overall GPA in accordance with the agreement that your institution has reached with Columbia. We recommend that students have a minimum overall GPA of 3.30. For students attending affiliates with agreements prior to 2017, an overall GPA of 3.30 or higher is required. For students attending affiliates with agreements in 2017 or later, a GPA of 3.50 or higher is required. *Please speak to your campus liaison to confirm which GPA is required for your institution.*
- Minimum pre-engineering GPA of 3.30, inclusive of all science and mathematics prerequisite coursework. Additionally, a minimum grade of B (3.0) must be obtained on the first attempt in all science and mathematics prerequisite coursework.
- Successful completion of both the foundational and major-specific prerequisite coursework by the end of the spring semester of application
- Successful completion of the degree and major requirements of the affiliate institution by the end of the spring semester of application
- Favorable recommendation letters: one each from the Combined Plan liaison, a science instructor and a math instructor
- Proficiency in English as directed by Columbia on our website
Prerequisite Coursework
A student should successfully complete the equivalents of the following Columbia courses at their home institution. Liaisons at each school are responsible for determining which classes fulfill these Columbia prerequisite courses and will advise students accordingly.

This curriculum guide is only applicable to students who began college in Fall 2018. Students who began college in a different term are subject to different admissions policies and a different Curriculum Guide. Courses listed are accurate as of October 2018.
Important Policies about Prerequisite Coursework

All prerequisite coursework must appear on the home institution’s transcript. Columbia requires all official transcripts, and liaisons must approve all coursework not taken at the affiliate institution. We will accept AP/IB or other advanced credit from high school as well as placement exams if the credit or exam clearly appears on the home institution’s transcript and is approved by the liaison. Columbia reserves the right to have the student demonstrate this knowledge and/or retake this course.

The overall GPA will be calculated by Columbia using all postsecondary courses for which a student has received credit on the home institution’s transcript. The pre-engineering GPA will be calculated by Columbia using all of the prerequisite coursework listed, with the exception of the courses fulfilling the lab requirement and humanities and social science requirements.

Due to the sequential nature of the engineering major coursework, prerequisite coursework cannot be taken while at Columbia and must be completed by the spring semester of application. Courses noted with * are excluded from this requirement, as they may be taken once at Columbia. Students may present course syllabi to request placement out of these courses once at Columbia.

Major requirements comprise the sequence of courses required to complete a major or primary course of study from the home institution. Degree requirements are courses, as listed in the home institution’s course catalog, that are required to obtain a degree from the home institution. A student does not need to complete the full number of course credits required for the degree (e.g., the full 128 credits), as the home institution will accept course credits from Columbia to complete this degree. Subsequently, 3-2 candidates cannot receive their degree from the home institution until the two years at Columbia are successfully completed.

Financial Aid Policies

Financial aid is available for Combined Plan students. Applicants should note:
• Columbia awards no merit scholarships; all financial aid is need-based only.
• Admission to the Combined Plan program is need-blind; financial need does not affect one’s chances of admission.
• We do not guarantee that we can meet 100% of demonstrated financial need for all Combined Plan students.
• Very limited financial aid is available for international students.
• Candidates are not guaranteed the same financial aid package that they may have received at their home institutions.

Housing at Columbia

Housing is guaranteed for Combined Plan students in their first year only; there is no guarantee that on-campus housing will be available in their second year. Off-Campus Housing Assistance at Columbia can assist students in their search for housing in the New York metropolitan area.
